LILIUM LONGIFLORUM JAPAN GROWN.

MULTIFLORUM TYPE.

The true variety under this name will produce more flowers per bulb than other types, but it is difficult to secure true stock of this unmixed with other grades. Our Japan growers promise that our stock shall contain 80 per cent true type.

PRICES:	6 to 8 inch (400 to case).....	Per 100,	\$3 50	Per 1000,	\$30 00
	7 to 9 inch, (300 to case).....	Per 100,	5 50	Per 1000,	50 00

GIGANTEUM (Dark Stem.)

While ordinarily considered later than other varieties of Longiflorum, it has proven with our customers as early as any, and when shipped and planted fairly late has formed fine plants even in growth and fairly early in season. The type is free flowering and true. The dark stems readily prevent mixture in the growing crop.

VAUGHAN'S LONDON MARKET BRAND.

We introduced this selected forcing pip to our Florist customers some years ago and it has given excellent satisfaction. The pips are large and plump with long fibrous roots. There is but one "London Market" quality and we control the selected pips of the entire crop, which is limited. Per 100, \$1.75; per 1000, \$14.00; per case of 2500, \$34.40; per 5000, \$67.50.

COLD STORAGE VALLEY PIPS.

London Market Brand. All shipments go by express. Our Cold Storage Valley gives excellent satisfaction, giving strong spikes of bloom with from 12 to 14 bells and plenty of foliage.

When orders are placed with us for cold storage stock, we set same aside, but can not be responsible for not being able to produce the pips if same have been destroyed by fire any other cause beyond our control. We accept no responsibility whatsoever for results in forcing.

Delivery Oct. 20th to Dec. 1st, dormant roots, 2 eyes.

KING HUMBERT—Best of all Cannas.

There is no other **Best Canna** to-day. None other can compare with it. This Canna has become known very generally during the past two years, but it remained for the S. A. F. Convention to see it at Dayton last summer; since which event the merit and popularity of this variety has been settled in this country.

Its giant flowers, orange scarlet in color, the very broad rubber-like bronze leaves, altogether make up a plant so distinctly in advance of any other Canna that the demand for and use of it must be universal.

These New Carnations to be disseminated in 1908. Book your order now to secure early delivery. All orders will be filled in rotation and of best cuttings which the growers send out.

AFTERGLOW. (Witterstaetter.)

This is sure to prove a winner. Color is a bright cerise, very close to Lawson in tint. A grand and easy doer. Has been on trial for five years and no weak spots found. Won the S. A. F. Medal and scored above 90 points.

WINONA. (Dorner.)

A beautiful pink, the shade so greatly in demand, but not found in our standard sorts. A pure pink without salmon or cerise in its shadings

DEFLIANCE. (Rudd.)

Color bright scarlet. Size two and three-quarter inches. Stems long and stiff. Habit upright with no superfluous grass. Growth strong and clean, with no tendency to disease. An early free and continuous bloomer; believed to be a first class commercial scarlet.

SARAH HILL. (Knopf.)

Probably the largest, free-flowering white variety extant. The form is beautiful and displays the size to the very best advantage; color very pure, texture excellent. A startlingly beautiful novelty, producing its flowers with great freedom.

ANDREW CARNEGIE. (C. Carn. Co.)

A pure-toned, bright scarlet sport from Harlowarden, with all the good qualities of the parent variety. The numerous localities where Harlowarden succeeds so admirably will have a warm welcome for Andrew Carnegie.

SINCERITY. (Rudd.)

Color deep Daybreak shade. Hot sun deepens instead of fading it; size easily three inches. Stem like that of Enchantress. An early, free and continuous bloomer.

BOSTON FERNS

NEPHROLEPIS.
EXALTATA.
BOSTONIENSIS.

We have five houses full of this most popular Fern in all sizes from 2½-inch to 12-inch pots. All our plants are pot-grown, bushy stock; well furnished with fronds from the pot up, and cannot be compared with the cheap long-drawn-up lifted stock from the bench.

These popular *Neprolepis Ferns* (Bontoniensis and Elegantissima) have proved the best decorative plants of recent introduction. They are all rapid growers, work up fast and are good sellers. Every florist should grow these ferns. We have the finest stock in the West.

NEW NEPHROLEPIS WHITMANI.

The Improved Tarrytown Fern.

In this we have unquestionably the most valuable *Neprolepis* of the Ostrich Plume type yet introduced. Not only is it of dwarfier and more compact habit than the *N. Elegantissima*, but the pinnae being more deeply divided gives the plant a much more graceful appearance, while another important point in its favor is the fact that not a single frond has ever reverted to the common Boston Fern.

BOSTON FERN.

NEPHROLEPIS AMERPOHLI.

This is the latest addition to the Ostrich Plume type and is certain to prove a welcome and popular variety, holding for delicacy and gracefulness the same position among the *Neprolepis* that *Adiantum Gracillimum* does among the Maiden Hair Ferns. The pinnae is so finely divided that it reminds one of a piece of fine lace. The fronds are broad and of a depth which gives them a cushion-like appearance. It forms a beautiful specimen and is admired by every one who sees it. We are now booking orders for September delivery. **50 cts. each; \$3.50 per doz.; \$25.00 per 100.**

NEPHROLEPIS ELEGANTISSIMA.

A sport from the Piersoni Fern, but is much more beautiful. It is as different from Piersonii Fern as that is from Boston. The small side pinnae are again subdivided, producing an exquisite and beautiful effect.

WHITE BABY RAMBLER ROSE.

NOVELTY ROSE

"WHITE BABY RAMBLER."

In this bush rose we have a true white Baby Rambler. Imported by us last year from Germany. After growing it for a year we are more than pleased with it as the plants have never been out of bloom. The flowers are borne in clusters of 50 to 75 individual flowers, 1 inch in diameter and pure snow white. A bed of this Rose is like a bank of snow.

The foliage is dark glossy and finely cut. Does not grow over 12 inches in height, forming very bushy plants. For cemetery use will be of great value, being perfectly hardy.

Secure stock early.
Strong 2-inch pot plants in bud, each, 15 cts.; doz., \$1.50; per 100, \$10.00.

For December delivery, 3-inch pot plants, each, 25 cts.; doz., \$2.50; per 100, \$20.00.

NEW ROSE "RED KAISERIN."

(Mme. Jules Grolez.)

The more we see of this grand Rose the better we like it. Having planted a bench of it this Spring the plants have given us grand flowers to cut all Summer on long strong stems. Kaiserin Augusta Victoria is well known and admittedly the best white Summer-blooming Rose.

In this new Rose we offer a red Kaiserin Augusta Victoria. It is similar to the white in foliage, habit, shape and size of bloom, but the color of the flowers is a beautiful cherry red.

We offer for delivery now strong 2 1/2-inch pot plants, each, 15 cts.; doz., \$1.50; per 100, \$10.00.

3-inch, each, 20 cts.; doz., \$2.00; per 100, \$12.00.

A grand new red forcing Rose, as large as American Beauty. Ready March 1st. Each, 50 cts.; doz., \$5.00; per 100, \$30.00; per 1000, \$250.00.

A First-Class Novelty—"Tausendschon."

A New Climbing Rose.

Raised by several crossings between the well known Crimson Rambler, Tea and Polyantha Roses. This beautiful novelty surpasses all other climbing roses of this section, both in growth, foliage and beauty of blooms. The flowers appear in large clusters from the beginning of June till end of July. Each individual flower measures about 2 inches across, and is of a beautiful soft pink, same color as Clothilde Soupert; later on changing into rosy carmine. The plant is of strong, vigorous growth, absolutely hardy and a most excellent variety to plant wherever a strong climber is desired. Very agreeable, as it is nearly thornless.

Florists will do well to force this grand rose in for Easter.
Strong plants, 4-inch pots, each, 30 cts.; doz., \$3.00; per 100, \$20.00.
One-year dormant grafted plants, each, 25 cts.; doz., \$2.50; per 100, \$15.00.

ANNY MULLER.

(Pink Baby Rambler.)

This Rose is the result of a cross between Crimson Rambler and George Pernet. The freely branching plants attain a height of 18 inches and all in growth somewhat similar to the Red Baby Rambler. The showy brilliant rose-colored flowers are produced in large clusters from June until frost. Each individual flower measures about 2 inches in diameter. Semi-double. Petals are somewhat twisted.

Florists will find this Rose valuable for Easter blooming, also for out-of-door bedding.

3-inch pot plants, each, 15 cts.; doz., \$1.50; per 100, \$10.00.
4-inch pot plants, each, 30 cts.; doz., \$3.00; per 100, \$20.00.

BABY RAMBLER ROSE.

The Everblooming Dwarf Crimson Rambler.

This new Rose, which was sent out by the name of Mme. Norbert Levasseur, is a cross between Crimson Rambler and Glory of Polyanthus, retaining the color of the former with the exceedingly free flowering habit of the latter, as well as its dwarf growth.

The plants are very vigorous and grow to a height of about 24 inches. The foliage is dark, glossy, profuse and remarkably free from insects and fungus.

The flowers are borne in clusters, 30, 40 and 50 to a cluster. They are in every way just like those of the Climbing Crimson Rambler and are produced perpetually.

NEW ANNUAL HOLLYHOCKS.

Bloom from Seed in 4 Months.

This new strain possesses all the virtues of the double old-fashioned Hollyhocks, with the additional advantage of blooming from the seed the first year. Sow in March. The plants branch out freely, grow to a respectable height, and are not so easily attacked by the Hollyhock fungus and therefore retain their fresh, bright green leaves until late. The flowers are double, semi-double or single. Last year we sowed some of this seed in the open ground May 19th, and the plants bloomed from the end of August until frost. MASTERPIECE—NEW GIANT CURLED.

This strain comes nearer to "Double Pansies" than anything ever introduced under that name. In reality the number of petals is the same as that in other Pansy flowers, but they are crimped and curled in such a fashion that the flowers appear double. The flowers are of enormous size, often 3 inches across, and the color variations and combinations are odd and striking. **Trade pkt., 35c.; 1/2 oz., 60c.; 1/4 oz., \$1.00; oz., \$4.00.**

VAUGHAN'S "GIANT PANSY MIXTURE."

Embraces, besides all the above shades and colors, five special strains not listed elsewhere in this Catalogue and which can only be had in this and our International Pansy. This mixture includes the richest reds, coppers and bronzes, together with the most delicate rose and pink shadings, all the distinct colors of Trimardeau, the splendid Cassier strain with its delicate veinings. We have spared no expense to secure the newest, richest and finest sorts. **Trade pkt., 25c.; 1/2 oz., 60c.; oz., 4.00; 1/4 lb., \$14.00.**

We import from all the best European sources and personally inspected the fields of French and German specialists of their finest strains. These with best American types made up the collection. Each year has added to the quality of its flowers, the variety of its colors. We buy every year novelties of known merit to improve the mixture. This is the reason it is always complete, always the latest and always the best mixture AS WE BELIEVE. We add to all the Pansy Mixtures which we now buy more than fifty per cent of choicest named kinds obtainable, each in rightful proportion. We thus know what it will produce. This is one of the SPECIALTIES which has established and held the reputation of Vaughan's Flower Seeds and this is one which we maintain most carefully, not alone as to quality but in vitality and germination. Myrtle Leaved Smilax , "Baby Smilax." This new Smilax is in several ways a great improvement on the old variety. The leaves are much smaller, resembling those of the Bride Myrtle. The vines are most graceful, of as quick growth as those of the old type, last longer and are harder. Cutvines have kept in water for over a week in good condition. For table and other decorations a most valuable novelty.....	100 seeds, \$1.00; 1,000 seeds, \$8.00

SWEET PEAS.

Any of the following, per oz., 5c, except where noted.

Dorothy Eckford. "The grandest pure white. In addition to its pureness it is a grand giant flower, also robust in growth and stem, with no tendency whatever to tinge or go pink; the plant is very short jointed, and grows an enormous mass of bloom." ¼ lb., 10c; lb., 30c; 5 lbs., \$1.25.

Florence Fraser. An improved Blanche Ferry. Color, pink and white; flower stems 12 to 14 inches long and very stout, bearing three or four large blooms. A strong vigorous grower and a free early bloomer. It surpasses Blanche Ferry in vigor, flower and stem, freedom and earliness. ¼ lb., 15c; lb., 40c.

Flora Norton. It is a very bright blue, quite different from Countess of Radnor and kindred varieties, being a brighter blue and clearer color. ¼ lb., 15c; lb., 40c.

Mrs. Geo. Higginson, Jr. A clear, delicate light blue, showing practically no tint of mauve. It is a thing our growers have been working for years, and while it is not any larger than the old Countess of Radnor, it is a particular fine shade. It is especially valuable for florists and is a decided novelty. ¼ lb., 15c; lb., 40c.

Countess Spencer Hybrids, the new Orchid-Flowering Sweet Pea. The type and form of these is a complete departure from anything yet introduced. Both the wings and standard are very large, and its graceful form, together with the immense size, makes it by far the most attractive variety in existence. There are five or six distinct shades contained in this mixture, but all are of the large flowering type and of the same form. ¼ lb., 15c; lb., 50c.

King Edward VII. A true giant flowering variety, with strong stems and growth, with no inclination to burn in the sun. A fine variety, much brighter than either Mars or Salopian. ¼ lb., 15c; lb., 40c.

VAUGHAN'S "ROSE-GROWER" BONE MEAL

This is a special brand we have put up for our trade. It is ground fine, hence acts quickly. It is made from bone accumulated in large slaughterhouses, and should not be compared with Bone Meal made from cattle heads and feet gathered on the western prairies. Our "Rose Grower" Bone has been slightly steamed to soften it so it can be ground fine, and is thus quicker in its action. A finely ground bone can also be more evenly distributed through the soil. Analysis.—Ammonia, 4½ to 5½ per cent; total phosphoric acid, 22 to 25 per cent; total bone phosphate, 48 to 54 per cent.

SPRAYERS.

THE FOUNTAIN. One of the best compressed air sprayers on the market. The tank has a capacity of 3 gallons and is tested to an air pressure of 50 lbs. to the square inch, which obviates any danger of bursting. Splendid for spraying pot plants in stores, etc. Always ready for use and never gets out of order. We have used one in our store for the past year and now find we cannot do without it. Price: Galvanized Tank, \$5.50; brass tank, \$7.00.

THE BRANDT. A new sprayer designed to overcome the many objections to the compressed air sprayers now on the market. Instead of pumping the air into the reservoir before starting to spray this sprayer is fitted with a pump which can be worked while you walk, thus controlling the pressure at will. Can be used for one or two rows. Reservoir holds 3 gallons of liquid, enough to spray a row a mile long, with only one filling. Price, Galvanized Steel Tank, \$5.00.

THE LOWELL—For applying insecticides in the form of a mist or vapor. The reservoir of this sprayer is made of glass, which enables the operator to see ingredients mixing just how they are working. Price, each, 75c; 3 for \$2.

AUTO SPRAY. Eight to ten strokes of the plunger in air chamber will compress enough air to discharge the entire contents and make a continuous spray for nine minutes. The "Auto Spray" has been improved this season by the addition of the "Auto Pop," shown in illustration. Briefly described, the "Auto Pop" is an automatic valve, which is closed by the air pressure used to operate the "Auto Spray." In operation a lever is moved by simply closing the hand, thus opening the valve and allowing an instantaneous discharge of spray. By releasing the lever it closes itself automatically; hence the spray is in perfect control. Price: Galvanized iron reservoir, \$4.50; with copper reservoir, \$6.00; with Auto Pop, \$7.00; in 2-foot lengths, each, 35c; Galvanized Extension Rod, in 2-ft. lengths, 25c.

Auto Pop, \$5.50; solid Brass Extension Rod, in 2-foot lengths, 25c.

PNEUMATIC SPRAYER. A compressed air hand-sprayer, the only one on the market we know of. This enables the operator to spray with one-half the labor the ordinary sprayer requires. Will throw a fine mist and can be used to advantage in applying insecticides, etc. One quart size. Galvanized Tank, each, \$1.00; Brass Tank, each, \$1.75.

SPRINKLERS.

SCOLLAY'S RUBBER. None better for floral work. Beware of cheap imitations. Made of best quality of rubber, and will outwear any other sprinkler in the market.

THE SABIN. Best and simplest plant stands on the market. The stand is thirty inches high and can be raised to fifty-four inches in height and is strong enough to carry 200 pounds. Holder will take a six or ten-inch pot, as the sides are made of the best spring steel; plant can be tilted at any angle. Stand can be folded up so that fifteen will go under the seat of a palm wagon and will only weigh about one hundred pounds. Each, \$2.00; per doz., \$18.00.

The Sabin.

THE WHITNALL. The special merits of this stand may be briefly enumerated as follows: The three feet cause it to stand firmly on a carpet or uneven floor. The upright is of three parts telescoped, being easily adjusted to various heights, fastened by means of thumb screws which are well made. The top flange will hold any ordinary pot upright, or by using the four-pronged crotch attachment, a pot can be placed on its side at two different angles; a very useful contrivance for temporary decoration. 1 stand, \$1.50; 3 stands, \$4.00; 6 stands, \$7.50; 12 stands, \$14.00.

WHEELBARROWS.

VAUGHAN'S GREENHOUSE.
 We have had numerous calls for a wheelbarrow which could be used in greenhouses; the ordinary barrow being too wide for that purpose, and we had built for us a special barrow which will fill this want to perfection. It is strongly built, very neat affair, of the following dimensions. Box, 14 in. wide at wheel end, 16 in. wide at handle end, 12 in. deep.

The bottom of the box is matched and glued together, and there is no crack against which a shovel might run. The wheel is of steel, 17 inches high, with a 2 1/2-inch tread; the axle is 15 inches wide. The barrow is 20 inches wide over all, and is made of the very best material, nicely painted and varnished. The legs are reinforced by iron straps. We consider it the very best barrow of the kind in existence. Price, \$4.50.

THE GLOBE GARDEN. Measurement of box, 30 inches long, 19 inches wide at wheel, 24 inches at handles. Price, with steel wheel, \$3.60.

VASES.

FLORISTS' GLAZED FIBRE.
 Furnished in deep, rich brown glaze; absolutely water-proof. Largely used for displaying cut-flowers. Can be used for many purposes. More desirable than glass or earthen, because they are light, strong and will not break if dropped. They pay for themselves in a short time. These vases are shipped from Chicago. If wanted from New York add 10 per cent. to prices below. These being made by a Western concern, we cannot furnish the sizes exactly as given if shipped from New York; but the variations are not important.
